BLEND

Want something a little different? We'll make you a custom blend that suits your particular palate.

The process starts by identifying the 2 – 4 wines you want to blend with and creating a few 100mL blend batches using those wines. Once you have chosen your preferred blend, we can produce a bottle (or several) for you.

Blend batches are \$6 each. Bottles are \$35 for one, \$30 for two or more.

CREATE

Add a unique and personalized touch to any bottle of wine!

We offer customized labels that include a photo and/or message – perfect for a memento or special gift.

Pre-printed labels are \$4, completely custom are \$8. Please ask your server for examples and options.
